

2022 Institute of Organic Chemistry's Biocatalysis Symposium

Friday, 28th October 2022 at the IOC lecture hall

Program

- 09:45 Introductory remarks
- 09:50 **Prof. Stephan Hammer**, Bielefeld University, Germany
"New catalytic reactions by enzyme engineering"
- 10:35 **Prof. Sandy Schmidt**, University of Groningen, Netherlands
"Illuminating Biocatalysis: Using the Power of Light to Drive Enzymatic Reactions"
- 11:20 **Dr. Hajo Kries**, Leibniz-Institute Jena, Germany
"Biosynthetic Design of Nonribosomal Peptides"
- Noon(ish) Lunch Break (*6th floor of the institute*)
- 14:15 **Prof. Martin Weissenborn**, Leibniz-Institute Halle, Germany
"Beyond Directed Evolution: Identifying New Enzymes for Organic Chemistry"
- 15:00 **Prof. Hans Renata**, Scripps Research Institute & Rice University, USA
"Combining Synthetic Chemistry and Biology for Streamlining Access to Complex Molecules"
